FANCHER

Corner Cabinet 2309
37x24 Height 72

FANCHER FURNITURE graces the homes of two generations of American families. It represents the best in 18th Century English forms and is always interpreted in *all mahogany*. This owner managed plant normally manufactures furniture for both the dining room and bed room. In these pages we present our first post war production — the Buckingham dining room group. All Buckingham pieces may be combined to create many harmonious groupings for large and small dining rooms. At present, only those pieces marked (*) are in production. Their all mahogany construction, aspen crossbands, superior metal trim, arrangements for silver and linen reflect the unsurpassed quality which always has been a Fancher tradition.

FANCHER FURNITURE CO.

SALAMANCA, NEW YORK

Every Piece Is All Mahogany
